5. Instances

MONEY SYMBOL

The **Money Symbol** is represented by fish icons. During every spin, each Money Symbol assumes a random value, which may include 2x, 5x, 10x, 15x, 20x, 25x, 50x, or even 2000x the total bet. All fish-paying symbols also act as Money Symbols and can carry these random values, especially during the **Free Spins** feature.

FREE SPINS FEATURE

The Free Spins feature is triggered by landing **3 or more SCATTER symbols**. Depending on the number of scatters, players receive:

- 3x SCATTER awards 20 free spins
- 4x SCATTER awards 15 free spins
- 5x SCATTER = 20 Free Spins

[attachment: Frame 170.png]

While Free Spins are active, every **WILD symbol** that lands collects all the values from Money Symbols visible on the screen. All WILD sy

mbols that appear during the feature are stored until the round ends.

Every **4th WILD symbol** collected retriggers the feature, awarding **10 more free spins** and increasing the multiplier applied to Money Symbol collections: 2x for the first retrigger, 3x for the second, and 10x for the third. Retriggered spins are added after the current batch ends, and the multipliers only apply to the retriggered spins. After the third retrigger, the feature can no longer be extended.

Randomly, when only **1 WILD symbol** appears on the screen at the end of a free spin, fish Money Symbols may appear in random positions to provide another chance to win. Special reels are used during this feature.

The **maximum win** is capped at **2,100x the total bet**. If the total win during Free Spins reaches this amount, the round ends immediately, the win is granted, and any remaining free spins are forfeited.

Wild Bomb

If a Wild symbol appears and no Money symbols are present, the feature may activate, respinning 3 to 5 random cells and revealing random Money symbol values.
