4. Features & Bonus Mechanics

Base Game

- The game is played on a **3×1 grid**. A win is awarded when all three symbols match. Multiplier symbols may appear and apply only to the win generated from the current spin. Base game multiplier values range from **2× to 100×**.

Re-Spin Feature

- A re-spin of all reels is triggered when three identical symbols land or when two identical symbols and one multiplier symbol appear. If two identical symbols land and the remaining symbol is neither a match nor a multiplier, a re-spin may be triggered on the non-matching

position based on a predefined probability. The re-spin sequence terminates upon a non-winning outcome.

Scatters & Free Spins:

- Landing **three Scatter symbols** triggers **Bonus Mode** and awards **10 Free Spins**.

Bonus Game:

- During Bonus Mode, the grid expands from **3×1 to 4×1**. The fourth reel is reserved exclusively for multiplier symbols with values ranging from **1× to 100×**. All base game matching rules and re-spin mechanics remain active. If multiplier symbols appear on the first three reels, winnings are calculated using stacked multipliers: *Total Win = Base Payout × Multiplier × Multiplier*

In-Game Jackpots:

- The game includes four jackpots: **Mini, Minor, Major, and Max**. Each jackpot is associated with a specific symbol. Landing a jackpot symbol increments its corresponding counter. Upon reaching the required threshold, the jackpot is awarded and the counter resets.

Buy Bonus (Optional)

- Player can directly purchase the bonus feature at a fixed multiplier of the current bet.

Enhance Bet (Optional)

- Increases the probability of landing Scatters or Wilds.
 - Bet amount increases to **140%** when enabled.
-
